Introducing Obero's fully integrated Workforce Planning Solution for IBM Cognos TM1

Workforce-related costs often contribute to the largest percentage of operating expenses for every organization. As a result, it is important for organizations to control these costs by planning for, and managing them more effectively.

The Workforce Planning Solution by Obero is an excellent starting point for managing your workforce. This intuitive solution helps corporations plan, manage, and align departmental staffing requirements, compensation, and benefits in one simplified solution.

When you choose Obero for your TM1 implementation needs, you can be rest assured that our user-friendly Workforce Planning Solution comes with it. Obero sets the foundation for workforce planning, so that you can hit the ground running!

THE BENEFITS

- Pre-built and easily deployable—integrates with your current planning model

- Saves time and implementation effort, resulting in reduced implementation cost

- Unifies workforce planning data in one solution

- Provides control over employee related operating expenses

- Excel look and feel for ease of use

- Workflow, Dashboard, and Reporting capabilities

- Scalable to meet future demands of any organization

WHY CHOOSE OBERO?

WINNING METHODOLOGY

Obero maintains a flexible project implementation approach. Depending on the needs of each client and the type of project, we employ vastly different and unique methodologies to ensure that each project is completed on time and within budget. Our implementation approach focuses on diligently understanding our clients' processes and requirements prior to designing any solution.

SAVE IMPLEMENTATION AND COSTS WITH OBERO

- Pre-built workforce planning solution saves you time, effort, and reduces your implementation cost while minimizing risk of errors!

- Obero has implemented workforce planning solutions for several clients of vastly different sizes, spanning across various industries. Regardless of complexity, we have designed a solution that adheres to functional and technical best practices

- Fixed-priced packaged solution option with predictive timelines and no hidden costs

COMMITMENT TO CUSTOMER'S SUCCESS

"Commitment" is not just another buzz word for us. We are always ready to "put skin in the game" – whether it comes to fixed price, time and materials or milestones based engagements, we are committed to minimizing your risk and proving our expertise, every step of the way!
